

Attention all stations, this is (Your Call sign), Net Control for this session of the weekly Duval ARES net, which operates under the callsign of N4JAX. This net meets every Wednesday @ at 7:30 PM on the W4IZ repeater, 146.700 tone 127.3, and is located in Jacksonville, FL. The backup for this session will be WJ4EOC 146.955 tone 127.3.

The purpose of these nets is to increase the operational readiness of local Amateurs and their equipment in the event of a communications or weather emergency, promote mutual aid, and transmit information of interest to the Amateur community. This is a directed net; all traffic must be directed through net control. All stations are encouraged to check in.

(Would anyone like to volunteer to be DMR net control please?)

Additionally, a separate net control (call sign) will be taking check in's via DMR on the DMR Network, talk group NE FL ARES 31128. If you have DMR capability, you are encouraged to check in digitally with the DMR Net Control in addition to this FM net.

Towards the end of the net I will contact the DMR Net Control for the list of digital check-ins.

This net is also accessible through Echo-Link node W4IZ-R. When checking in via Echo-Link, please key your radio for one second before speaking to ensure you are heard.

The use of correct ITU phonetics and adherence to normal net procedures will be required. When checking in, please speak slowly giving your full call sign, your call sign phonetically, your name, and your location. If possible, please provide an abbreviated weather report and your storm spotter number. Please be concise. When checking in, it will *NOT* be necessary to advise net control that you have *No Traffic*.

Does any station have announcements for Duval County ARES or the ham radio community? Your call sign please.

(This is the first Wednesday of the month. Please let Net Control know if you are using backup power)

We will begin by taking EchoLink station check-in's. EchoLink stations, your call sign suffix please.

(Acknowledging station ending in ____ . Please fill your call, give your name, your location, and your report)

We will now take check-in's from ARRL-appointed officials. Again, please provide any status reports as you check in.

Duval County Emergency Coordinator, are you on frequency?

Continuing with ARRL-appointed officials , Duval County Assistant Emergency Coordinators, your suffix please.

(Acknowledging station ending in ____ . Please fill your call, give your name, your location, and your report)

Clearing with____

I will now take check-in's from Liaison Stations such as Red Cross, JSO, Neptune Beach Police, ABP, JBP, JFRD, JEA, Duval EOC, and Duval County School Board.

(Acknowledging station ending in ____ . Please fill your call, give your name, your location, and your report)

Clearing with____

This is N4JAX continuing with regular check-in's based on the first letter of your call sign suffix. Relays may be called upon as necessary. I would like to take three to five callsign suffixes, then I'll acknowledge them. When acknowledged, please state your full call sign, your call sign phonetically, your name, and location. If possible, please provide an abbreviated weather report and your storm spotter number.

Mobile Stations only, your suffix please?

Digital Net Control (**callsign**) are you back on frequency? (please relay digital check ins) **NOTE: If Digital Net Control is not available now, hold the net open and continue after logging the digital net check-ins.**

Are there any stations not previously acknowledged by Net Control? Your call sign please.

Is there any additional business for the net before we close? Your call sign please. **(Note: If you have not logged the digital check-ins, circle back with Digital Net Control)**

This concludes the business for the Duval County ARES Wednesday Net

I would like to thank everyone for checking in. Duval ARES meets the fourth Tuesday of every month at 7PM at Hogan Baptist Church.

This is (Your Call sign) operating as net control for this session and now securing the net at (Time) and returning this frequency to normal amateur use, 73. Please stand by for the tones.

Repeater to Net condition = 10-33A

Repeater reset to normal mode = 10-66A
